Appendix 3 - D1 Scenario

Comprehensive foot care intervention to prevent lower extremity amputations in people with diabetes. This scenario exposes the parameters for neuropathy screening and foot care programs that work by early detection and management of diabetic neuropathy complications. The intervention reduces progression from diabetes to lower extremity amputation by providing educational programs, access to appropriate footwear, and multidisciplinary clinic care. Neuropathy screening identifies at-risk individuals with diabetic nerve damage who require enhanced foot care, with a target population in need of 66% of diabetic patients. The intervention includes systematic foot examinations, patient education on foot care practices, provision of therapeutic footwear, and coordinated care through specialized clinics. This intervention is particularly effective in preventing costly and debilitating amputations while improving quality of life for people with diabetes. Note: This intervention should be implemented alongside other diabetes care interventions for comprehensive management of diabetes complications.

Identity

Scenario id	diabetes-d1
Model card	model-card:ncd-diabetes:client-manifest-current:v1
Scenario source	public/models/ncd-diabetes/scenarios/diabetes_d1.json

Scope	

This is a manifest-level scenario card. If the scenario file contains a Country value, that value is the scenario authoring default; the run certificate records the countries actually materialised and executed. **Scenario Parameters**

Parameter	Value
Country	AFG
Neuropathy Screening Baseline Coverage	0.05
Neuropathy Screening Target Coverage	0.95
Scale-Up Start Year Neuropathy Screening	1
Scale-Up Final Year Neuropathy Screening	2
Neuropathy Screening Population In Need	1
Intensive Glycaemic Control Baseline Coverage	0.05
Intensive Glycaemic Control Target Coverage	0.05
Scale-Up Start Year Intensive Glycaemic Control	1
Scale-Up Final Year Intensive Glycaemic Control	2
Intensive Glycaemic Control Population In Need	0.1
Standard Glycaemic Control Baseline Coverage	0.05
Standard Glycaemic Control Target Coverage	0.05
Scale-Up Start Year Standard Glycaemic Control	1
Scale-Up Final Year Standard Glycaemic Control	2
Standard Glycaemic Control Population In Need	0.9

Nephropathy Screening Baseline Coverage	0.05
Nephropathy Screening Target Coverage	0.05
Scale-Up Start Year Nephropathy Screening	1
Scale-Up Final Year Nephropathy Screening	2
Nephropathy Screening Population In Need	1
Retinopathy Screening Baseline Coverage	0.05
Retinopathy Screening Target Coverage	0.05
Scale-Up Start Year Retinopathy Screening	1
Scale-Up Final Year Retinopathy Screening	2
Retinopathy Screening Population In Need	1
Baseline Coverage Physical Inactivity Advice	0.05
Target Coverage Physical Inactivity Advice	0.05
