Appendix 3 - D2 Scenario

Comprehensive diabetic retinopathy screening and treatment intervention to prevent blindness in people with diabetes. This scenario exposes the parameters for retinopathy screening programs and laser photocoagulation treatments that work by early detection and management of diabetic eye complications. The intervention reduces progression from diabetes to diabetic retinopathy and blindness by providing systematic eye examinations and timely laser treatment for all diabetes patients. Retinopathy screening identifies diabetic patients with early eye damage who require laser photocoagulation treatment, with a target population in need of 33% of diabetic patients. The intervention includes regular ophthalmologic examinations, retinal photography screening, and laser photocoagulation therapy to prevent vision loss and blindness. This intervention is highly cost-effective in preventing irreversible vision loss and maintaining quality of life for people with diabetes. Note: This intervention should be implemented alongside other diabetes care interventions for comprehensive management of diabetes complications.

Identity

Scenario id	diabetes-d2
Model card	model-card:ncd-diabetes:client-manifest-current:v1
Scenario source	public/models/ncd-diabetes/scenarios/diabetes_d2.json

Scope	

This is a manifest-level scenario card. If the scenario file contains a Country value, that value is the scenario authoring default; the run certificate records the countries actually materialised and executed. **Scenario Parameters**

Parameter	Value
Country	AFG
Neuropathy Screening Baseline Coverage	0.05
Neuropathy Screening Target Coverage	0.05
Scale-Up Start Year Neuropathy Screening	1
Scale-Up Final Year Neuropathy Screening	2
Neuropathy Screening Population In Need	1
Intensive Glycaemic Control Baseline Coverage	0.05
Intensive Glycaemic Control Target Coverage	0.05
Scale-Up Start Year Intensive Glycaemic Control	1
Scale-Up Final Year Intensive Glycaemic Control	2
Intensive Glycaemic Control Population In Need	0.1
Standard Glycaemic Control Baseline Coverage	0.05
Standard Glycaemic Control Target Coverage	0.05
Scale-Up Start Year Standard Glycaemic Control	1
Scale-Up Final Year Standard Glycaemic Control	2
Standard Glycaemic Control Population In Need	0.9

Nephropathy Screening Baseline Coverage	0.05
Nephropathy Screening Target Coverage	0.05
Scale-Up Start Year Nephropathy Screening	1
Scale-Up Final Year Nephropathy Screening	2
Nephropathy Screening Population In Need	1
Retinopathy Screening Baseline Coverage	0.05
Retinopathy Screening Target Coverage	0.95
Scale-Up Start Year Retinopathy Screening	1
Scale-Up Final Year Retinopathy Screening	2
Retinopathy Screening Population In Need	1
Baseline Coverage Physical Inactivity Advice	0.05
Target Coverage Physical Inactivity Advice	0.05
